Dr. Marshall Nirenberg
Chief, Lab Biochemical Genetics
Bldg. 36, Rm. 1C06
NHLBI, NIH
Bethesda, MD 20205

Dear Marshall:

We are organizing the second Gordon Research Conference on the "Central Nervous System", which will focus on the molecular and cellular factors influencing neural development, and will be held June 12-17, 1983, at the Tilton School in Tilton, NH. We would be very honored if you would be able to participate in this conference: Session 6; Topic - Synaptogenesis.

We will be able to reimburse you for part of your expenses with funds made available from the Gordon Research Conference. Although additional funding is being sought, we will not know of its availability until next spring; therefore, we suggest that you seek travel funds from other sources if possible.

We would be most grateful if you would let us know of your decision at your earliest convenience (and a tentative title for your presentation). A tentative program is enclosed for your information. Additional participants will be invited to present poster sessions. As you probably know, the aim of the Gordon Research Conference is non-formal with total participation in discussion between speakers, discussion leaders and audience.

Your participation will be a special asset to the success of the Conference, and we are looking forward to your acceptance.

*Best Regards,
Hope you will still be
able to attend.*

Sincerely,

Nicholas W. Seeds, Ph.D.,
Professor
Dept. Biochem/Biophys/Gen.

on behalf of

P.S. Timiras, M.D., Ph.D.
Professor and Chairman
Dept. Physiology - Anatomy
University of California
Berkeley
